

We appreciate you downloading our Core 25 Flipbook!

We hope you find it useful for a child in your life.

open as a PDF and click on any image on this page to be taken to the corresponding link

Need to customize this flip book for your child?

A completely customizable Canva template version is available for purchase at www.sproutedrootswellness.com/shop

Canva is a free design tool you can use to create and customize your own designs. If you sign up with an educational email address, you automatically gain access to many of the pro features of Canva for free.

Need help customizing Canva templates? We've got a video for that!

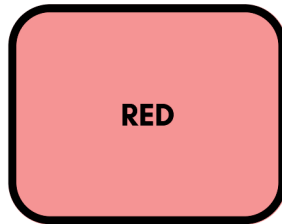

Check out our vlog for neurodiversity-affirming tips to add to your therapy practice.

Our sensory tools video series pairs perfectly with this core board. Check out "Wearing Headphones" now and more coming soon!

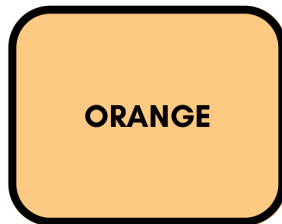

This core board uses a modified Fitzgerald key to categorize different parts of the English language.
